

Congratulations **Miss LEE Man Yui, Coco** from The University of Sheffield, UK on receiving the Best Presentation Award in Engineering Panel for CUHK Summer Undergraduate Research Programme (SURP) End-of-Programme Virtual Presentation.

Coco's project is aimed to develop and validate techniques for the characterization of red blood cells' biophysical properties as a tool for disease diagnostics.

Project Title: Biophysical Phenotyping of Red Blood Cells

Supervisor: Professor Megan Ho, Department of Biomedical Engineering, CUHK
