PhD Student and Postdoctoral Fellow Positions
@Yuan Lab
Department of Biomedical Engineering
The Chinese University of Hong Kong
https://scholar.google.com/citations?user=3A_h6-sAAAAJ&hl=en

Multidisciplinary research positions are available in the following areas:
(1) **Optical Coherence Tomography (OCT)** technologies for clinical intraluminal imaging and intra-operative applications,
(2) **Advanced Endomicroscopy and Computational Optics** for translational biomedical imaging,
(3) **Machine Learning** for advanced biomedical imaging functions and quantitative image analysis.

**Desired candidates** should have:
(1) a background in optics, electrical engineering, physics, or other closely related fields; (2) hands-on experience in any of the following areas: optics, bio-optics, fiber-optics, lasers, optical imaging/microscopy, deep learning; and (3) good publication record.

Interested applicants can send their CV to:

Wu ‘Scott’ Yuan, PhD
Assistant Professor of Biomedical Engineering
