CUHK BME innovations received six prestigious awards at the Silicon Valley International Inventions Festival, 26-28 July, 2024

Prof. Raymond Tong's research team won six prestigious awards at the 2024 Silicon Valley International Inventions Festival (SVIIF), including three special prizes (China Association of Inventions (CAI), The United Inventors Association of America (UIA), Korea Invention Promotion Association), and three gold medals.

The three inventions were: XoMuscle (Bionic Artificial Muscle), Hope4Care (Markerless AR training system), Intelligent Nighttime Brace with Smart Padding.

Mayor of Santa Clara, Lisa M. Gillmor also joined us to celebrate with all CUHK teams and it is an honor to have a picture with her.
